Wan-Hsuan (Lin)

SENIOR FRONT-END ENGINEER

"CODE MY WAY, CHASE MY DAY"

Senior Front-end Engineer with **4+ years of expertise in the Vue/Nuxt ecosystem**. Transitioning from a legal background, I leverage rigorous analytical logic and structured thinking to build scalable web architectures. I have a proven track record of spearheading front-end development and independently achieving **WCAG 2.1 AA accessibility certification**. Experienced in high-performance optimization for rendering datasets exceeding 10,000 entries, I am dedicated to bridging cutting-edge technology with high-standard, maintainable production environments.

SKILLS

- **Frontend**: Vue 3, Nuxt 3/4 (SSR), TypeScript, React Native (Expo)

WORK HISTORY

Apr 2025 – Present

Senior Front-end Engineer

Blue Planet Information Co., Ltd. I Taipei

Key Projects: GCTF Official Site & WRA Cloud Data Platform

- **Architecture & Modernization**: Spearheaded the development of the GCTF platform using Nuxt 4 (SSR), implementing a robust vue-i18n framework and a state-driven dynamic breadcrumb system to enhance SEO and navigation flow.
- **Accessibility Excellence**: Independently led the implementation of WCAG 2.1 AA standards, optimizing semantic HTML and keyboard navigation to secure national-level accessibility certification.
- **Performance Optimization**: Resolved rendering bottlenecks for large-scale datasets (10k+ records) by implementing asynchronous loading strategies, Debounce throttling, and custom virtualization techniques.
- **Efficiency Gains**: Developed high-level CRUD abstractions using internal component libraries (BpTable/BpForm), reducing redundant code by over 40%.

- **Standards**: Web Accessibility (WCAG 2.1 AA), SEO Optimization
- **Styles**: Tailwind CSS, SCSS, Responsive Web Design (RWD)
- **Quality**: Playwright (E2E), Vitest (Unit), AI Code Review
- **DevOps**: Git, GitHub Actions (CI/CD), Docker
- **Backend**: FastAPI, Firebase, Firestore, RESTful API

CORE COMPETENCIES

- Systems Thinking & Architecture Design
- Cross-functional Collaboration (with PM/SD/UI)
- Code Quality Governance (CI/CD)
- Technical Leadership & Code Review
- Problem Solving & System Stability

EDUCATION

Feb 2022 – Aug 2022

Front-end Development Program
Chinese Culture University (SCE)

2017 – 2021

Bachelor of Laws (LL.B.)
Fu Jen Catholic University

- **AI-Driven Development**: Leveraged AI Code Review tools (Devstral-24b) to pre-screen logic, resolving 80% of potential errors before manual review and boosting delivery efficiency by 20%.

May 2024 – Mar 2025

Front-end Engineer

Top Path International / Taipei

- **Complex State Management**: Orchestrated intricate UI logic using Vue 3 and TypeScript, ensuring zero-latency interactions in data-heavy, highly reactive scenarios.
- **Type Safety & Stability**: Led refactoring efforts to enforce strict TypeScript definitions, drastically reducing runtime errors and improving codebase scalability for multi-developer collaboration.
- **Maintainable Design**: Advocated for "Design for Maintainability" through rigorous Peer Code Reviews, establishing standardized patterns for future feature iterations.

Sep 2022 – May 2024

Programmer

Wisdom Secure Technology Co., Ltd. / Taipei

Key Achievements:

- **Modernization & CI/CD**: Led jQuery to Vue.js migration and implemented vue-i18n and Jenkins, enhancing system maintainability and global market readiness.
- **Performance & Mobile**: Engineered a Virtual Scroll solution for 60fps rendering of 10k+ records and developed a React Native mobile app to improve accessibility.
- **Commercialization**: Transformed internal tools into SaaS products and successfully delivered to government agencies like the NCC, driving company revenue.
